

TELECOM SOLUTIONS FOR BUSINESS, HOME & GOVERNMENT

WHO ARE WE?

We started as a small team passionate about providing Internet to unconnected residents in our rural community. Today, we've grown into a leading telecommunications company and one of the fastest-growing companies in America, offering innovative telecom solutions tailored for businesses, communities, and, public institutions. While our commitment to closing the Digital Divide remains steadfast, we've earned a reputation as dependable partners, thought leaders, and innovators.

We take pride in knowing our customers by their first names and in the immense power our network holds in delivering possibilities and creating change. We're not just an Internet Service Provider – we're the connection point that helps your business thrive today and build a better tomorrow. It's our privilege to provide you with connectivity you can count on.

It is our privilege to provide you with connectivity you can count on.

It's time to upgrade. In today's world, having a high-functioning network is no longer a luxury, it's a necessity. GeoLinks' award-winning ClearFiber™ network is designed to seamlessly support all your business's key functions, ensuring ultrafast uninterrupted connectivity.

Benefits of ClearFiber™

Guaranteed Speeds up to 10 Gbps

Stop sharing your bandwidth with your neighbors and the office next door. When you upgrade to ClearFiber™, your business gets a dedicated Internet circuit, guaranteeing you receive the speeds you actually sign up for.

Multi-point Redundancy

All of GeoLinks' wireless broadcast towers connect to both a fiber backbone and additional fixed wireless backhauls, guaranteeing uninterrupted connectivity. This multi-point redundancy ensures that our customers always stay connected to the essential services and applications they need most.

Unlimited Bandwidth

Unlike satellite providers, GeoLinks never throttles or caps your bandwidth. This means that you can run your business without worrying about data caps or speed limitations. ClearFiber™ enables even the most rural office locations to experience the freedom and flexibility of unlimited bandwidth.

Zero Data Mining Guarantee

We respect your privacy and have a strict "no data mining" policy. We also promise to never:

- Block or discriminate against any lawful online content
- Throttle the transmission of data
- Prioritize traffic to certain websites over others

We do what no other carrier can.

Experience the most resilient, high-speed, dedicated Internet network on the market.

SD-WAN

GeoLinks is committed to providing our customers with the best innovations in networking. That's why we're proud to be partnered with VeloCloud and Turnium, the industry's leading SD-WAN technology experts, to offer the most comprehensive SD-WAN (Software-Defined Wide Area Network) solution available on the market.

SD-WAN utilizes software to simplify the process of delivering the WAN over reliable connectivity...

Inbound Failover

Network Redundancy

VOIP/Video Prioritization

Benefits of SD-WAN

Site-to-Site VPN

Establish secure connections between multiple fixed office locations with our advanced SD-WAN technologies, including virtual private networks (VPNs).

Save Money

SD-WAN technology is less expensive than MPLS, reducing operational and capital expenditures by up to 50%.

Enhanced Performance

Get optimal application performance with dynamic multi-path optimization and routing capabilities.

Business Continuity

Experience 100% uptime with SD-WAN when you bundle GeoLinks' ClearFiber™ and LTE failover for uninterrupted, reliable connectivity.

Business Agility

Implement changes swiftly to accommodate the evolving customer, market trends, and preferences thanks to SD-WAN technology's quick adaptation.

Business Security

Minimize security threats with comprehensive encryption and micro-segmentation, securing the flow of your data across all network points.

Upgrade How Your Business Communicates with GeoLinks' DigitalVoice Solutions.

HOSTED PBX | SIP TRUNKS | ANALOG PRI HANDOFFS | 4G LTE FAILOVER
